1. Business Model & Objectives

Description:

EduNova AI is an AI-powered learning platform that provides personalized study plans, smart quizzes, and real-time academic assistance for students. The platform uses machine learning to adapt to each learner's progress, helping improve understanding, productivity, and exam performance.

Problem:

Many students struggle with one-size-fits-all learning methods, lack personalized guidance, and find it difficult to track their academic progress. Existing platforms often fail to adapt to individual learning styles, resulting in lower engagement and reduced learning outcomes.

Solution:

EduNova AI analyzes each student's learning behavior and academic performance to generate customized study plans, recommend relevant learning resources, and provide AI-powered doubt resolution. The platform continuously updates recommendations based on user progress, creating a personalized and interactive learning experience.

Target Audience:

High school students, college students, competitive exam aspirants, online learners, educational institutions, tutors, and parents seeking personalized learning solutions.
